JANITORIAL SUPPLIES

ISSUE 3

JANITORIAL SUPPLIES

Since our incorporation in 1876, Till & Whitehead Ltd has been supplying customers both large and small with quality ironmongery, engineering and tooling products at competitive prices. With a keen focus on quality of service, our heritage as a traditional family-owned business continues to this day, ensuring that as a valued customer, you will receive a personal and friendly service, coupled with advice and product knowledge tailored to your individual requirements.

Given the longevity of our company, janitorial supplies are a relatively new addition to our product range. Entering this market around the turn of the millennium, we have built up almost 15 years' experience in this sector, forging quality relationships with major manufacturers and suppliers to ensure we can offer you a wide choice of products. We offer a range of additional services including online ordering, personalised order forms, and special product sourcing, to ensure the purchasing process is as simple as possible.

We look forward to providing you with exceptional service.

Certificate of Registration

This is to certify that the Quality Management System of:

Till and Whitehead Ltd t/a Handley and Beck

**65 Brindley Road
Astmoor Industrial Estate

RESEARCH & DEVELOPMENT

Continual product development, by Evans R&D team, enables them to produce consistent, efficient and cost effective products, in the face of regulatory and environmental challenges.

MICROBIOLOGY

With the longest standing non-governmental UKAS accredited laboratory approved for testing disinfectants, Evans can ensure that bactericidal claims are substantiated by EU test methods.

QUALITY CONTROL

Every aspect of Evans production process is monitored and documented by their experienced QC team. This dedication to ensuring consistent quality is recognised with ISO 9001 accreditation.

Wash Your Hands

Why?

- To remove contaminants from the skin
- Because hands are the main vehicle for transmitting germs

When?

- After visiting the washroom
- Whenever hands are visibly soiled
- After touching contaminated surfaces
- After each work period

How?

1

Apply 1 shot of soap to dry hands

2

Rub in well all over palms and backs of hands

3

Add a little water to loosen soilings

4

Rinse hands with water

5

Dry hands thoroughly

www.debgroup.com

TERMS AND CONDITIONS OF SALE

1. Definitions

In these conditions "The Company" means Till & Whitehead Ltd upon whose document these conditions are endorsed. "The Customer" means the person, firm or company or other body to whom this document is addressed. "The Goods" means the goods supplied by us from time to time.

2. Conditions

These conditions shall form the basis of the contract between the Company and the Customer. Notwithstanding anything to the contrary in the Customer's standard conditions of purchase, these conditions shall apply except so far as expressly agreed in writing by an authorised officer of the Company. No servant or agent of the Company has power to vary these conditions orally or to make representations or promises about the condition of the Goods, their fitness for any purpose or any other matter whatsoever.

3. Order Acceptance

Unless otherwise expressly stated in writing, all quotations, estimates and catalogues supplied by the Company are invitations to treat. The Customer's order is an offer and shall become binding upon acceptance by the Company. The contract arising on such acceptance may only be cancelled or varied with the Company's consent; the giving of the Company's consent shall not in any way prejudice the Company's right to recover from the Customer full compensation for any loss or expense arising from such cancellation or variation. The Company reserves the right to charge a 20% handling charge for those goods which are obtained specially and are subsequently not required. There may also be at the discretion of the Company a 15% "returned goods" charge for those items which are ordered by the customer incorrectly.

4. Price

(a) All quotations and estimates issued by the Company are, unless otherwise stated, based on the then current cost of production, including (but not limited to) costs of labour materials, carriage and overheads, and are subject to increase on or after acceptance to meet any rise in such costs, unless otherwise expressly agreed in writing prior to supply.

(b) The price is exclusive of VAT. The Company shall be entitled to charge the Customer in addition to the price VAT or any Government tax or levy in substitution therefore at the rate prevailing at the date of the Company's invoice.

5. Delivery

(i) The Company is prepared to undertake delivery of the goods, however in this event the Company shall charge the Customer at normal commercial rates for such delivery, unless otherwise agreed with the Customer prior.

(ii) The Company will deliver as near as possible to the Customer's said address as exists a safe and adequate access thereto. The Customer shall provide at his own expense adequate unloading facilities and all necessary plant power and labour for unloading and stocking, such plant power and labour to be available during the customary cartage hours of the district of the Customer's said address on the date delivered. The Customer shall unload with reasonable despatch. Damage due to inadequate light access or careless unloading shall be at the Customer's risk.

(iii) The Company undertakes to use its best endeavours to despatch the Goods on the stated delivery date but time of delivery shall not be of the essence of the contract. If delivery is delayed by strikes, lock-outs, fire, accidents, defective materials, delays in receipt or raw materials or bought in goods or components, or any other cause beyond the reasonable control of the Company a reasonable extension of time for delivery related to such cause shall be granted and the Customer shall make no claim for any loss thereby arising.

(iv) If the Customer fails to take delivery on the agreed delivery date or if no specific delivery date has been agreed, when the goods are ready for despatch, the Company shall be entitled to store and insure the goods and to charge the Customer the reasonable costs of so doing and to tender its account for the price under condition 7.

(v) The Company may at any time withhold delivery of the Goods to the Customer pending payment of any sum due from the Customer to the Company under any other contract.

(vi) In the event of the Company using an independent carrier to deliver the Goods, the Customer shall notify the Company within 3 days of the date of despatch (as indicated on the invoice) of non-delivery of the said Goods.

6. Short Delivery and Damage in Transit

The Customer shall note any claim for short delivery and/or damage to components on the delivery note at the time of delivery, shall notify the Company of the claim orally within three working days and shall confirm the claim in writing to the Company within seven working days from the date of delivery. Compliance with this requirement shall be a condition precedent to any claim for short delivery and/or damaged components. If short delivery does take place, the Customer undertakes not to reject the Goods but to accept the Goods delivered as a part performance of the contract.

7. Payment

(a) Unless otherwise agreed in writing the Customer shall pay the price for the Goods not later than the last date of the month following the date of invoice and shall pay interest on overdue accounts at 3% above HSBC Bank PLC base rate, accruing daily. If the Customer shall fail to pay promptly, he shall lose the benefit of any previously agreed discount.

(b) The Customer shall pay all accounts in full and not exercise any rights of set off or counterclaim against invoices submitted.

(c) In the event of default in payment by the Customer in accordance with these agreed terms, the Company shall be entitled without prejudice to any other right or remedy to suspend any further deliveries without notice.

(d) In the case of goods sold by instalments each instalment shall be paid for separately and provisions of this clause shall apply to each instalment.

8. Warranties

(a) The Goods are warranted to accord with agreed specification, or if there is no such specification, to have been subject to inspection by the Company's quality control. All other warranties or conditions as to quality or description (statutory or otherwise) are excluded.

(b) All information and details contained in the Company's specifications have been carefully prepared to avoid errors but their accuracy is not guaranteed and the Company shall not be liable for any inaccuracies or omissions.

(c) Any recommendations or suggestions, relating to the use of the goods made by the Company is given in good faith but it is for the Customer to satisfy itself of the suitability of the Goods for its own particular purpose. Accordingly unless otherwise expressly agreed in writing, the Company gives no warranty as to the suitability of the goods for any particular purpose even though that purpose may be specified in the Customer's order and any implied warranty or condition (statutory or otherwise) to that effect is excluded.

9. Guarantee

(i) The Customer shall carry out a thorough inspection of the goods within a reasonable time after their delivery and shall give written notification to the Company forthwith of any defects which a reasonable examination would have revealed.

(ii) Subject to compliance with the above obligation, which shall be a condition precedent to the Company's liability, and provided that no attempt has been made by the Customer or a third party to rectify, or alter the goods in any way, the Company will repair or replace (at its option) any goods which are defective due to faulty materials or workmanship. In the case of goods or component parts of goods not of the Company's manufacture, the Company will assign to the customer its rights against its supplier and these rights shall be taken in extinction of and in substitution for any rights which the Customer would otherwise have had against the Company.

(iii) The liability of the Company under this guarantee or the warranty contained 8 (a) hereof shall be limited to the invoice value of the Goods replaced or repaired and the Company shall not be liable for any consequential loss or damage howsoever caused. It shall be the duty of the Customer to insure against such consequential loss and to hold the Company harmless therefore.

10. Title and Risk

The title to the Goods shall pass to the Customer only when the Customer has met all sums owing to the Company howsoever arising. The risk in the Goods shall pass on delivery and the Customer shall insure against all loss and damage to the Goods. The Customer irrevocably authorises the Company and its duly authorised servants and/or agents to enter upon the Customer's premises for the purpose of repossessing the Goods where the title therein has not passed to the Customer.

11. Health and Safety

The Customer undertakes to take all steps necessary to ensure that the goods when properly used will be safe and without risk to health. The Customer shall indemnify the Company against any liability whether civil or criminal which the Company may be under in respect of any illness or injury caused by the Goods or their use.

12. Product Liability

The Customer shall indemnify the Company against all loss arising from any liability which the Company may incur in respect of the Goods or any of them resulting from any claim brought against the Company under Part 1 of the Consumer Protection Act 1987.

13. Intellectual Property

Where the goods are manufactured by the Company in accordance with the Customer's particular requirements the Company shall not be liable for any loss or damage arising out of any claim made or threatened against the Company for infringement or any letters patent, design, copyright, trade mark or any other title of any third party in respect of such goods and the Customer shall indemnify the Company against any claims arising from such infringement.

14. Proper Law

The Company and the Customer agree that the contract is an English Contract and that English law shall be the proper law of the contract.

15. Telephone Recording

The company occasionally records incoming and outgoing telephone conversations for training and appraisal purposes only.
